## Introduction

Thank you for purchasing the VGA & Audio Switch 2:1.  
This manual switch is a great tool for sharing one monitor between two systems or sharing one computer between two monitors - including audio support!

## Package Contents

- VGA & Audio Switch
- LINDY Manual

## Features

- Switching between two computers and one VGA monitor or between two monitors and one computer
- Stereo audio support
- Supports VGA resolutions up to 1920 x 1200
- Supports VGA, SVGA, XGA, SXGA, UXGA, WQXGA and Multi-sync monitors
- Easy to install with no power required

Signal Type		VGA , SVGA , XGA, SXGA , UXGA , WQXGA
Connectors	Video	HD-15 Female x 3
	Audio	3.5mm Audio Jack x 3
Video Resolution		1920 x 1200 @75 Hz
VGA Bandwidth		450 MHz
Housing		Plastic
Dimension (L x W X H)		155 x 98 x 29 mm

## **Installation**

Before starting the installation, please ensure that all the equipment to be used (PCs, monitor, speakers etc.) are switched off.

### 2 PCs – one monitor:

Connect video monitor/VGA signal sources from PC/notebook or other standard VGA output to the corresponding ports of the VGA switch using a VGA cable (HD-15 Male / HD-15 Male) and the Audio sources to Audio inputs using a Stereo Audio cable (3.5mm Male / 3.5mm Male).

Connect the VGA output of the switch to your monitor using a VGA cable (HD-15 Male / HD-15 Male) and then connect the Audio output to your speakers using a Stereo Audio cable (3.5mm Male / 3.5mm Male).

### 2 monitors – 1 PC:

Connect video monitor/VGA signal sources from your monitors to the corresponding ports of the VGA switch using a VGA cable (HD-15 Male / HD-15 Male) and the Audio sources to Audio inputs using a Stereo Audio cable (3.5mm Male / 3.5mm Male).

Connect the VGA output of the switch to your PC using a VGA cable (HD-15 Male / HD-15 Male) and then connect the Audio output to your speakers using a Stereo Audio cable (3.5mm Male / 3.5mm Male).

Turn on all the connected equipment. The installation is now complete.

Push front panel push button to switch to different channels. If there is only one channel activated, the other button will be inactive.

# CE/FCC & Recycling Information

**WEEE (Waste of Electrical and Electronic Equipment),  
Recycling of Electronic Products**

## United Kingdom

In 2006 the European Union introduced regulations (WEEE) for the collection and recycling of all waste electrical and electronic equipment. It is no longer allowable to simply throw away electrical and electronic equipment. Instead, these products must enter the recycling process.

Each individual EU member state has implemented the WEEE regulations into national law in slightly different ways. Please follow your national law when you want to dispose of any electrical or electronic products. More details can be obtained from your national WEEE recycling agency.

## Germany

Die Europäische Union hat mit der WEEE Richtlinie umfassende Regelungen für die Verschrottung und das Recycling von Elektro- und Elektronikprodukten geschaffen. Diese wurden von der Bundesregierung im Elektro- und Elektronikgerätegesetz – ElektroG in deutsches Recht umgesetzt. Dieses Gesetz verbietet vom 24. März 2006 an das Entsorgen von entsprechenden, auch alten, Elektro- und Elektronikgeräten über die Hausmülltonne! Diese Geräte müssen den lokalen Sammelsystemen bzw. örtlichen Sammelstellen zugeführt werden! Dort werden sie kostenlos entgegen genommen. Die Kosten für den weiteren Recyclingprozess übernimmt die Gesamtheit der Gerätehersteller.

## France

En 2006, l'union Européenne a introduit la nouvelle réglementation (DEEE) pour le recyclage de tout équipement électrique et électronique.

Chaque État membre de l' Union Européenne a mis en application la nouvelle réglementation DEEE de manières légèrement différentes. Veuillez suivre le décret d'application correspondant à l'élimination des déchets électriques ou électroniques de votre pays.

## Italy

Nel 2006 l'unione europea ha introdotto regolamentazioni (WEEE) per la raccolta e il riciclo di apparecchi elettrici ed elettronici. Non è più consentito semplicemente gettare queste apparecchiature, devono essere riciclate. Ogni stato membro dell' EU ha tramutato le direttive WEEE in leggi statali in varie misure. Fare riferimento alle leggi del proprio Stato quando si dispone di un apparecchio elettrico o elettronico.

Per ulteriori dettagli fare riferimento alla direttiva WEEE sul riciclaggio del proprio Stato.
